Product mix

The choice of hardener and Thinner should be made according to application temperature and size of repair.

U1120 red / BPO Red	Standard hardener paste for dedicated Standox Polyester Stoppers.
U1120 blue / BPO	Recommended for dedicated Standox Polyester Stoppers. Mainly used at higher application temperature.

Clean after use with a suitable solventbased cleaning thinner.

Remarks

· Do not add more hardener than recommended to avoid bleeding and spot marking.

- · Do not apply over 1K primer, etch primer or thermoplastic acrylic finishes.
- · Do not wet sand.
- Reaction temperature should be at least +5°C.

Consult Safety Data Sheet prior to use. Observe the precautionary notices displayed on the container.
