

DESCRIPTION

AXT580 Pore Filler is a paste-like 1K pore filler specially developed to seal small pores in the surface of plastic parts.

FEATURES

1K Pore Filler to seal micropores in plastic surfaces. Helps to ensure an exceptional finish on porous plastic substrates.

Product preparation - application

It is strongly recommended to use appropriate personal protection equipment during application to avoid respiratory, skin and eye irritation.

Porous plastic parts, especially for PUR soft plastics

Apply AXT580 Pore Filler with a lint-free cloth preferably moistened with a solventbased thinner. Wipe onto the surface to fill open pores. Wipe off using a clean lint-free cloth.

Not applicable

2K Elastic Primer-Surfacer
Plastic Adhesion Primer

VOC compliant

This product mix is out of scope for VOC directive

Products

AXT580 Pore Filler

Product mix

Mixing ratios with special agents are available in the productmix table on the colour retrieval web site and in the specific TDS.

Remarks

- Material has to be at room temperature (18-25°C) before use.

Consult Safety Data Sheet prior to use. Observe the precautionary notices displayed on the container.

All other products referred to in the refinish build up are from our Axalta product range. System properties will not be valid when the related material is used in combination with any other materials or additives which are not part of our Axalta product range, unless explicitly indicated otherwise.
